

Bug-reports :	
ID	BR1
Summary	There is no error message about loading an invalid format into a user avatar
Pre-conditions	Open the website on the main page
	Have a file in PDF format
Steps	1) Go to user profile
	2) Click on the user's avatar
	3) Click on the button "Change avatar"
	4) Click on the button "Download file"
	5) Select and download the PDF file
	6)Click the "Save" button
Expected result	The download field should change color to red. The message "We support image formats: JPG, PNG, GIF" should appear.
Actual results	The message appeared about the successful change of the avatar
Post-conditions	
Environment	All browsers
Severity	Low
Priority	Low
Type of bug	Functional\Logical
